REGIONAL NEWS ROUNDUP

NELSON (CP) — The Mineral King mine of Sheep Creek Mines Limited has received the safety award of the West Kootenay Mines Association as the safest of the smaller mines in British Columbia in 1957. The mine is near Invermere in the Windermere Valley.

VANCOUVER (CP) — Police raided a downtown night club Sunday night following an anonymous tipoff and charged more than 100 men with being found in a gaming house. One man was charged with keeping a gaming house. The men were taken to the police station in seven vans.

KAMLOOPS (CP) — Prince George took the British Columbia bowling championship title here Sunday, with a grand aggregate of 23,575 points. Whalley, Penitence and Kamloops took the next three places with 23,257, 23,114 and 23,100 points respectively.

LADYSMITH, B.C. (CP) — More than 200 Vancouver island farmers, escorted by a live cow, are expected at the legislative buildings in Victoria today to demand restoration of their milk price differential. The farmers want dismissal and replacement of the three members of the B.C. Milk Board.

TRAIL (CP) — The transportation, mail and freight committee of the Trail chamber of commerce has protested the CPR's curtailment of passenger train service between Nelson and Penitence.

TRAIL (CP) — U.S. customs offices in Washington State and Idaho may remain open 24 hours a day starting March 1, a spokesman for the Trail centennial committee said Saturday. Approval of the long hours was granted by the U.S. government "in view of British Columbia's centennial," the spokesman said.

VANCOUVER (CP) — Police said Sunday they are searching for a man who has been terrorizing girls living in basement suites in suburban Point Grey. They said a man crept into a suite Saturday and forced two girls to undress at knifepoint.

Textile's Second Tariff Bid Fight Opens In Ottawa

OTTAWA (CP) — The second round of the battle for increased tariff protection by Canada's textile manufacturers opens here today.

The Canadian Primary Textiles Institute wants sharply increased import duties on wool yarns and asks that present tariff regulations on waste, rags and yarns be consolidated.

In a brief to be presented before the tariff board, the Canadian industry argued that increased duties are required to counteract labor costs which it said are higher in Canada than in foreign industries competing for the domestic market.

Pearson Promises Millions Tax Cuts

DAILY COURIER OFFERS FREE AD SERVICE TO UNEMPLOYED

In an effort to assist unemployed people in the Kelowna area, The Daily Courier will print "employment wanted" ads without charge to the jobless, until the end of this month.

During that period anyone without a job may advertise for one by appearing at the newspaper office with an unemployment insurance book, or—in the case of immigrants not yet provided with these—a landing card. Each applicant is promised three-day publication of a three-line classified ad.

The Courier has timed its free ad service to coincide with the "do it now" campaign promoted by the Canadian government for the last three years to combat winter unemployment.

Under this program householders are urged to schedule repairs, renovations and other temporary jobs for the winter months when labor is not at a premium.

Liberal Platform Will Include Dazzling Aid

OTTAWA (CP)—Liberal Leader Lester B. Pearson today pledged to slash taxes by \$400,000,000 a year and to provide a big array of other concessions if his party is elected to power March 31.

His platform, outlined at a press conference following Mr. Pearson's sojourn at a secret retreat, had something for everyone, including scholarships and bursaries for some 40,000 university students.

For the majority of Canadian taxpayers, the income tax would be slashed by 25 per cent. In addition, the basic exemption for newlyweds would be doubled to \$4,000 a year in the first three years of marriage, providing an estimated saving of some \$25,000,000 for this group.

THE PLATFORM

Here is Mr. Pearson's program:

1. The personal income tax would be reduced immediately by four percentage points on the first \$1,000 of taxable income, saving taxpayers about \$250,000,000 a year.
2. Basic tax exemption for married couples would be increased to \$4,000 from \$2,000 in the first three years of marriage effective Jan. 1, 1958. This could save couples a maximum of \$900 in three years. The over-all annual saving would be \$25,000,000.
3. The 7½ per cent excise tax on automobiles would be abolished, saving car buyers about \$60,000,000 if the concession was passed along to them.
4. The present 20-per-cent corporate income tax on small companies would be reduced to 10 per cent on the first \$10,000 profits, saving these businesses about \$25,000,000 a year.
5. Present rates of depreciation would be increased by between 50 and 100 per cent on capital expenditure started in the 1958-59 fiscal year beginning next April 1.

AMBITIOUS AIDS

In addition, Mr. Pearson promised special aid for municipalities, farmers, labor and youth and pledged to expand social security measures. For children continuing studies the family allowance would be extended to age 18 from the present 16. Unmarried women and widows would be able to get old age assistance of \$55 a month at the age of 60 instead of the present 65. Unemployment insurance would be provided for illness as well as for being laid off.

Tunis Bombs Halted France Advises U.S.

PARIS (AP)—Reliable diplomatic sources said today France has told the United States steps will be considered to prevent any repetition of such incidents as Saturday's bombing of a Tunisian village in which 78 persons were killed and 84 wounded.

The sources said French foreign ministry secretary-general, Louis Joxe, told U.S. Ambassador Amory Houghton that the French cabinet will consider such steps today and also will launch an inquiry into the incident at Sakiet Sidi Youssef.

He was reported to have told the United States that there were 16 incidents provoked by forces from the Tunisian side of the frontier in the period from November to December and another half-dozen such incidents in January.

Blizzard Blamed For 16 Deaths

By THE CANADIAN PRESS

Near-blizzard conditions in sections of Ontario, upper New York state, the Maritime provinces and Quebec during the weekend contributed to at least 16 deaths.

The storm appeared Friday night when a centre swept north into the North England states and swung into New Brunswick, Nova Scotia, eastern Ontario and Quebec. It virtually paralyzed the entire New York Sunday night. Driving snow plugged highways, stranded ice fishermen and contributed to scores of minor accidents Sunday in the snow belt areas of Ontario hugging Lake Huron and Georgian Bay.

Local Air Officer Seriously Injured

A Royal Canadian Air Force officer is in hospital here with serious scalp wounds, concussion and other injuries as a result of a head-on collision with a truck on Highway 97 beside Wood Lake early Saturday night. Said by the attending physician to be in "fair" condition today is FO Oren Knarr of Vancouver, RCAF recruiting officer for this area. The RCAF station wagon, which was heavily damaged, was on the right side when it crashed into the solid rock wall near the Swiss Village curve.

RCMP said the driver, who was heading south at the time, apparently lost control of the truck. The injured man lost a large quantity of blood from cuts to his head received from the shattered windshield. FO Knarr was brought to the hospital by the city ambulance. He was unconscious from the time of the accident until early today.

Local Delegation Confers With Premier On Municipal Problems

Mayor Parkinson, two aldermen and two heads of civic departments still are in Victoria today conferring with government officials. Actual reasons for the conference with Premier Bennett and provincial government department heads were not revealed but it is believed two topics under review are Okanagan Lake bridge and the city's claim that it is paying more than its share of school costs. With the mayor are Aldermen Arthur Jackson and Jack Treadgold and city comptroller Douglas Herbert and city assessor James Markle. The delegation may confer with Canadian Pacific Airlines officials in Vancouver, on their way back to Kelowna about the middle of next week. City council and other local organizations have been corresponding for some time with CPA over use of Ellison airport as a stopover for regularly-scheduled flights of big CPA planes between Vancouver and eastern points. Meanwhile, there will be no regular public council meeting tonight, according to Acting Mayor R. D. Knox.

Bennett Target Of New B.C. Political Movement

VANCOUVER (CP)—A group of five business and professional men have initiated a crusade to strengthen the moral fibre of British Columbia politics.

Formation of the Provincial Voters' Association, a political discussion and political action movement, was announced Saturday by David Sturdy, one of the five.

Mr. Sturdy, a Vancouver lawyer, made the original allegations against former lands minister Robert Sommers that led to the laying of corruption charges by the RCMP. The case of Sommers, Social Credit MLA for Rossland-Trail, is now before the courts.

Mr. Sturdy said Sunday night the association, not yet officially constituted, was conceived at meetings that began several months ago.

INFORMAL BEGINNING

At first only he and one other man were involved. Then a third, a fourth and finally a fifth joined in. Over cups of coffee, at one or another of two homes,

they held long talks on the state of public life in B.C. and means of improving it. In his statement Saturday Mr. Sturdy described the association as "primarily an educational and moral movement." The statement severely criticized the Social Credit government of Premier W. A. C. Bennett, citing allegedly "unsound economy measures," costly appointment of "experts" to cover up maladministration; and "prosecutions of persons in high places on charges of corruption."

In an interview Sunday night Mr. Sturdy refused to disclose the names of his four associates. For reasons of their own, he said, they wished to remain anonymous.

Alberta Utilities Urge Gas Export For Development

CALGARY (CP)—Alberta's two major natural gas utilities today called for more export markets to give the incentive for maintaining a healthy oil and natural gas industry.

A joint submission from the Northwestern Utilities Ltd. of Edmonton and the Canadian Western Natural Gas Co. Ltd. of Calgary to the Borden energy commission observed:

1. Alberta markets for gas are limited at present and export from the province is necessary to provide adequate market outlets.
2. Assuming ultimate reserves in the province of at least 75,000,000,000 cubic feet, it appears that substantial quantities of gas can be exported without endangering future local supplies.

Workers' Health Declared Asset

VANCOUVER (CP)—Maintaining the health of workers is as much an asset to a company as keeping its equipment in shape, Dr. Donald C. Bews of Montreal said today.

Dr. Bews, medical director of the Bell Telephone Company of Canada, said industrial management in Canada has not yet accepted widely the importance of conserving human resources. Managements of small plants in particular had tended to neglect industrial health services, nor was the situation in large industries too satisfactory.

BULLETIN

Five youths who pleaded guilty last week to the recent Mission Creek Motors robbery will be sentenced by Superior Magistrate Donald White in District police court tomorrow. They are being brought to Kelowna by an RCMP escort today from Kamloops.

JILTED LOVER ASKS DEPORTATION

China Doll Spurns Knot

VANCOUVER (CP)—China after a long courtship by post, set the city's Chinese community buzzing last week when she refused to go ahead with the ceremony. The Chinese Benevolent Association, Chinatown's leading organization, said her action was a breach of a strict Chinese code. Officials called a meeting to discuss the matter.

MIGHTY LAKE OKANAGAN BRIDGE RISES RAPIDLY

Kelowna's most avid rapid transit dreamers floated this week as they watched fast moving construction on Lake Okanagan bridge. Pictured above (in upper photo) is a view of east approach. The span, constructed by Dominion Bridge Co., rests on huge fire hoses and control valves, which supplied nearly 5,000 gallons per minute at 190-pound pressure. Anchors were "jetted" into lake bottom with water. (SEE OTHER BRIDGE PICTURES ON PAGE 8) (Photos by Paul Ponich)

WESTERN CANADA FATALITIES

Seven Killed At Weekend

By THE CANADIAN PRESS

Seven persons were killed accidentally in the four western provinces during the weekend, three in two house fires in Brandon, Man.

Two persons were killed in Saskatchewan and one each in Alberta and British Columbia. Two-year-old Terry Webb and his 17-month-old sister Diana died when flames swept their homes in Brandon early Saturday. Flames prevented Mrs. Webb from entering the children's room and she was forced into 13-below weather in her night clothes. Firemen believe gasoline poured into a wood stove caused a blaze which fatally burned Mrs. Steve Hallgren, 48, in Brandon Sunday.

Mrs. George Parker, about 45, was killed Saturday near Whitewood, 110 miles east of Regina, when a team of horses bolted while hitched to a car. Mrs. Parker was thrown beneath the car and dragged about 50 yards. She had been trying to start the ve-

hicle in cold weather.

Metro Frey, 35, was killed Friday night when struck from behind while walking on a highway near Canora, 130 miles northeast of Regina.

In Alberta, Dale Winters of Leduc, 32-year-old driller, was killed when crushed by a piece of

heavy equipment while helping to move an oil rig near Princess, in the Medicine Hat district.

B.C.'s one reported fatality occurred near Abbotsford where a 75-year-old man was struck by one car and thrown into the path of a second. Police withheld his

Fuchs-Hillary South Pole Trek Moves Into Last Long Stretch

WELLINGTON, N.Z. (Reuters) last year. The expedition hopes to reach the British Antarctic expedition, led by explorers Vivian Fuchs and Sir Edmund Hillary, today were 19 miles out of Depot 700 on the last long stretch across the frozen continent before the approaching winter freezeup hits.

In a radio report this morning, Fuchs said the expedition had got safely through a line of party over the route Hillary laid out on his way to the South Pole north of Depot 700.

If Bridge Is To Be Named Call It The Bennett Bridge

There has been some interest locally recently in a name for the Okanagan Lake bridge which will be opened this July. Presumably on the expectation that Princess Margaret will officiate at the opening, it has been suggested by at least one organization that it should be named the "Princess Margaret Bridge". On the other hand some West-side readers of this paper suggest that a local committee should be formed, if local opinion is to have any bearing on this matter.

The naming of the bridge, if any, would seem to rest with the toll bridge authority which is building it. This, in effect, means the government, which, of course, is quite free to seek local advice, should it so desire.

It may well be that the government will decide to go along without naming the bridge at all, allowing custom to decide whether it is to be "Okanagan Lake" or "Kelowna" bridge. As far as this newspaper is concerned, it is hoped that the bridge is not named after Princess Margaret as that is too long and cumbersome, despite it being a gracious tribute to the princess. And we trust, too, that it will not be named after a pioneer or old-timer. There is only one bridge and there are many pioneers, many of whom would be deserving of the honor.

This newspaper took its stand on this matter as long ago as five years and it now sees no good reason to change it. It has heard no better name than the "Bennett Bridge." It is short and it is euphonious. Equally important, it does mean something.

After all Mr. Bennett is the local member

of the legislature and he is premier of this province. Further, while it is true that Mr. Bennett did not first conceive the bridge (the first planning was by the department of public works in the regime of the late E. C. Carson), it is not unfair to say that Mr. Bennett has been the sparkplug of the construction and that had it not been for his enthusiasm and his keen appreciation of the need the bridge would not now be almost a fait accompli.

Undoubtedly, Mr. Bennett has had more to do with the bridge than any other person. There was a time, indeed, when the original plans were found to be impractical when a less resolute man would have thrown in the sponge, but Mr. Bennett ordered an entirely new approach and the near-completed structure is the result.

While it is true that all of us in the Okanagan may not always agree with Mr. Bennett, at least we must give credit where credit is due and in the matter of the bridge all credit certainly must go to Mr. Bennett. In the light of this then, and recognizing the appropriateness of the name, why should the bridge not be called simply the "Bennett Bridge"?

It may well be that Mr. Bennett as head of the government may have some personal reluctance about suggesting this name. We trust not. If, however, such should be the case, we trust the other members of the toll bridge authority, his conferees, will quickly override this attitude. For on all counts "the Bennett Bridge" is the appropriate and logical choice.

Interfering With Nature

The momentum of man's progress has come to be an awesome thing, sometimes with man making an illogical fool of himself. No sooner has his ingenuity whipped up something epochal like the missile than he puts himself to the task of making an antimissile missile to eliminate the missile he made in the first place.

In his efforts at self-government we see him setting up laws, then straining to find loopholes in them, so as to escape their effect. He grubs for money to enhance his well-being, but is never satisfied until he has more than he can use, then lives in fear of losing that excess.

But it is when he starts messing around with nature that man pulls such boners that even he begins to worry about ultimate results. Only recently has he discovered he can't destroy forests, overwork lands, transplant flora and fauna carelessly, without suffering unnatural consequences.

Somebody tried to beautify the Congo with water hyacinths, and now it is clogged with them. Birds imported from Europe to America likewise thrived and became a nuisance—even while the passenger pigeon

and the whooping crane were being wiped out. Now man can wipe out man.

Here in our mountains, the coyote has to go because he preys on domestic livestock. But the coyote also preys on mice, so it follows that the fewer coyotes, the more mice and other rodents, and something must replace the coyote, otherwise we will get a pest even more troublesome.

Now on the brink of space exploration, man is also on the verge of learning to control his weather and the climate of the earth lives on. This may be his fatal mistake.

It would be distressing enough to see the Russians or anyone else smear the moon with signpainter's ink. But it would be more outrageous if any man were to flood the Sahara, send blizzards to the valley of the Amazon and melt all the snow and ice at the North Pole. Horribly enough, such stunts appear to be coming into the realm of possibility.

Great as is the present rate of expansion of human knowledge, it must ever be only a little knowledge, and dangerous when applied to seeking loopholes in the laws of universal nature.—Denver Post.

The Gov't In Power Holds Election "Purse Strings"

By DAVE MCINTOSH
Canadian Press Staff Writer

OTTAWA (CP)—A government trying for re-election has the big advantage over its opponents: It holds the purse-strings.

That is why the Liberal, CCF and Social Credit parties probably will have a hard row to hoe in combatting some Progressive Conservative election promises, especially in the field of public works, during the campaign leading to the March 31 vote.

Some federal politicians—and they are not all Conservatives—say the government made a good move strategically speaking when it didn't introduce in Parliament before dissolution a budget or any estimates of government spending for the 1958-59 fiscal year which starts April 1.

That is, the government's election campaign is not constructed by what a budget and the estimates might contain.

LIBERALS DEFERRED
Before Parliament was dissolved in 1957 for the June 10 election, the former Liberal program for the 1957-58 fiscal year,

was outlined. Included in that budget was a \$6 monthly increase to \$46 in the old-age pension, a relatively small boost that did not sit well with many voters.

After the Conservatives won the election and took over the government, they added a \$9 monthly increase of their own to boost the pension to \$55.

Also, with no budget or detailed spending estimates to tie them down, Conservative candidates in the current election campaign will be able to promise their electors various programs which probably would have been carried out even if there had been no election.

The other parties can make such promises in a general way but, having no control over the drawing up of the estimates, they are unable to give precise undertakings.

Just as an example: A federal to-day cabinet minister would know that, say, the government planned to

have a new post office built in some town. He thus could make a promise to this effect while campaigning in that town—with the proviso, of course, that the government be re-elected.

Election promises, naturally, can be embarrassing.

During the last session of Parliament, the Liberals kept handy in the Commons for ready reference a red-covered book—about the size of a large mail-order catalogue—which they said contained the complete list of Conservative election promises in the 1957 campaign.

The Conservatives maintained that they had carried out all the major promises by the time Parliament was dissolved.

But the Liberals time and again challenged the government to show where it had eliminated "waste and extravagance," as the Conservatives had promised.

As it turned out, the Conservative minister would know that, say, the government planned to

have a new post office built in some town. He thus could make a promise to this effect while campaigning in that town—with the proviso, of course, that the government be re-elected.

have a new post office built in some town. He thus could make a promise to this effect while campaigning in that town—with the proviso, of course, that the government be re-elected.

Election promises, naturally, can be embarrassing.

During the last session of Parliament, the Liberals kept handy in the Commons for ready reference a red-covered book—about the size of a large mail-order catalogue—which they said contained the complete list of Conservative election promises in the 1957 campaign.

The Conservatives maintained that they had carried out all the major promises by the time Parliament was dissolved.

But the Liberals time and again challenged the government to show where it had eliminated "waste and extravagance," as the Conservatives had promised.

As it turned out, the Conservative minister would know that, say, the government planned to

have a new post office built in some town. He thus could make a promise to this effect while campaigning in that town—with the proviso, of course, that the government be re-elected.

POOLSIDE PRIZE

By TRACY ADRIAN Here's something new under the sun. A cocktail swim suit ensemble consisting of a bathing suit and matching skirt. It is quite an idea for poolside parties. The suit is a one-pieceer with a fitted bodice with inset bra, a rounded neckline and shoulder straps. It has a little skirt and is made of elasticized silk cord. The full, cocktail-length skirt is also of silken cord, with a formal bow in front. Both are in horizon blue.

"Prize Your Eyes" Will Be Theme Of White Cane Week Feb. 10-15

"Prize your eyes. They are your greatest treasure," declared Mrs. W. C. Bending, president of the Canadian Council of the Blind in a special White Cane Week interview. Co-sponsored from coast to coast by The Canadian Council of the Blind and The Canadian National Institute for the Blind, White Cane Week has played a major role in the interpretation of the handicap of blindness to the Canadian public. "The nation's 22,000 blind citizens are aware of a growing responsibility Mrs. Bending explained. "You, the sighted, have supported the rehabilitation program for the blind so that every year more and more of us are able to take our place beside you as independent self-respecting persons. Therefore, we are intensifying the sight conservation program begun last White Cane Week to urge you to take care of your eyes." **FOUR LIGHTING** Technical experts claim that most Canadian homes are poorly lighted. Eye physicians and lighting engineers agree that sharp contrasts of strong light and deep shadows in the home cause eye strain. Reading and sewing

Canadian-Born Woman Is Only Licenced Balloon Pilot In N.A.

TORONTO (CP)—The only licenced woman balloon pilot in North America is Canadian-born Mrs. Alfred Wolf of Blue Bell, Pa. A graduate of Toronto's Branksome Hall, class of 1916, Mrs. Wolf returned this week to the private school for girls to tell of her adventures in the air-borne baskets. She was Mike Todd's technical adviser in production of the film Around the World in Eighty Days, and as movie star David Niven was aloft in the famous balloon Mrs. Wolf was on hand at all times for advice. **NOVA SCOTIA NATIVE** The former Constance Cann of Sydney, N.S., she is the granddaughter of A. C. Ross, who was

Arab New-Borns Wrapped In Rags

OTTAWA (CP)—Misery has many faces; among them those of Arab refugee mothers who have only rags to wrap around newly-born infants. "Through the Unitarian Service Committee of Canada the United Nations Relief and Works Agency has appealed for a year's old balloons. A new one costs \$25,000 warm jackets about \$15,000 and each time you replace rags as swaddling clothes in the Middle East. Dr. Lotia Hitchensmanova, USC's director, said in an interview that the figure 2,083 now which is cheaper at \$150, but it has become "an obsession" at headquarters here. That's the number needed each month to meet the 12-month quota. The jackets are for babies of the 950,000 Arabs who fled homes, the damages and this makes out in Israel since that country became an independent state in 1948. Dr. Hitchensmanova said an appeal for jackets has been made by the provincial presidents of motion picture in the Women's Institutes in Alberta and Ontario. The Girl Guides of Canada, and the Saskatchewan Farmers' Union, also have pledged support.

Beautiful Spanish Artist Next Concert Attraction

The Civic Music Association will present the second artist in this season's series on February 17. "A soprano to listen to with your eyes open," a qualification world-famous Impresario S. Hurok likes to have in his artists and one that, from photographs and enthusiastic reports, fits the Spanish lyric soprano, Pilar Lorengar, like a glove. Miss Lorengar, who sang at the Empress Theatre on February 17, made her North American debut with The Little Orchestra Society in Manhattan's Town Hall last year and won from the highbrow New York critics extraordinary tributes to her beauty as well as her vocal attributes. Said The New York Times critic Howard Taubman, "A girl with the gifts of beauty and song," and the Journal American's Miles Kastendieck called her "as lovely to behold as to hear." The Herald Tribune's Jay Harrison described her as "A radiant, dark-eyed Spanish beauty with a soprano as fresh as spring rain, glowing with color." The World-Telegram and Sun said "Gifted and beautiful," and The Saturday Review's Music Editor Irving Kolodin summed it all up by saying that Lorengar "looks well enough to have a stage career even if she couldn't sing and sings well enough to have a musical one."

PILAR LORENGAR

Said The New York Times critic Howard Taubman, "A girl with the gifts of beauty and song," and the Journal American's Miles Kastendieck called her "as lovely to behold as to hear." The Herald Tribune's Jay Harrison described her as "A radiant, dark-eyed Spanish beauty with a soprano as fresh as spring rain, glowing with color." The World-Telegram and Sun said "Gifted and beautiful," and The Saturday Review's Music Editor Irving Kolodin summed it all up by saying that Lorengar "looks well enough to have a stage career even if she couldn't sing and sings well enough to have a musical one."

without her good looks." Miss Lorengar's combination of looks and talent brings her into the company of such Hurok artists as Roberta Peters and Patrice Munsel. She was born in Zaragoza and musically educated in Madrid after she showed signs of unusual gifts while still a child. Her debut took place only six years ago when she sang the lead in a Zaragoza (a popular Spanish form of light opera) in Oran. Since then she has made many recordings, several films, won numerous prizes and scored with critics and public at England's

Glyndebourne Festival and the Royal Opera, Covent Garden, in Brussels Theatre de la Monnaie and at the Aix-en-Provence Festival. Her first appearance outside her native Spain took place in late 1954, when the Spanish Ambassador to Belgium brought her to Brussels to sing a Gala Concert for the Hispano-Belgium Society. From the overwhelming critical and audience response to her first American appearances, last year, it is probably only a matter of a short time until her career here in concert, TV and the films will parallel her success abroad. Meanwhile Miss Lorengar considers Madrid her home and her apartment there bulges with dogs, canaries and an enormous collection of hats. London, Paris and New York are occupying more and more of her time and she may be forced to establish a home in one of those cities, too. New York impressed the soprano very much. In a fluid combination of English, French, Italian with most of the key words in Spanish, Miss Lorengar says that the Empire State Building is "magnificent," the people "delectable" and the air "forte." She likes the English, too but has the impression that a "gl Am-er-icani" have more tempera-ments, than the "Ingleses," who are very distinguished but a little calm.

CARS Has Valentine Party

The new annex to the health centre was beautifully decorated on Friday evening. Fifty patients enjoyed the annual Valentine party held for them by the women's auxiliary to the Canadian Arthritis and Rheumatism Society.

Mrs. F. Burns, and Mrs. Birt hyacinths provided by Mr. E. Showler. Mrs. P. B. Willis was in charge of the driving committee. Mr. Jim Spall extended thanks to the auxiliary for the wonderful evening on behalf of the patients present.

A full evening's entertainment consisting of a bingo game, run by Mr. W. O. Clarke, films shown by D. Whitman, and a half hour's diversion by Bruce Bissell and Company contributed to the huge success of the affair. Billy Jennings, who was responsible for the artistic achievement in the charming decorations, also provided recorded music for a rousing sing-song. Guessing games were played and twenty prizes were awarded during the evening. A Valentine cake donated by Mrs. R. F. Foote was won by Mrs. Elder.

Bed-ridden patients were not forgotten. The heart-shaped centre pieces, fashioned around

The party was under the co-sponsorship of Mrs. S. E. Dowd. Members of the committee included the president Mrs. F. T. McWilliams, Miss I. Francis, physiotherapist, Mrs. E. Winter, Mrs. R. F. Cruikshank, Mrs. C. G. Murdoch, Mrs. O. Jennings.

It is a tragic thing when someone loses his sight," Mrs. Bending observed. "Last year over 2,000 Canadians became blind. About 7 per cent of these lost their sight through accidents. Then there are the thousands who escaped blindness, but who lost the sight of one eye or damaged their sight to some degree. Perhaps this is a deeper tragedy still."

Mrs. Bending exhorted everyone to give thought to good vision to use care with sharp instruments, and to develop good lighting arrangements. "These principles are particularly important in our homes where children are learning to see, to read and to study," she said. So take our White Cane Week tip and "Prize Your Eyes." They're priceless."

RESORT WEAR

By VERA WINSTON

Printed cotton for resort wear is done in a modified sheath silhouette. The sheath, incidentally, is holding its own, despite the chemise dress. Tones of orange, pink and yellow color the white background. The line is broken by a higher-than-waistline half belted in front. Seaming from the neckline terminates in pockets at both sides. The dress closes with a zipper in back for perfect fit.

MIGRANT BUDGIE WINDSOR, Ont. (CP)—A brightly colored budgie found a new home with Mrs. F. D. Lin-ton when it flew through falling snow to land on her rose bush. Completely tame, it rode on her hand into the warmth of the house.

Child Must Learn Two Lessons Teach Them One At A Time

By GARRY CLEVELAND MYERS, Ph.D.

Sometimes, a two-year-old will make the family miserable. He may even be more vexing when there are guests. A mother in Texas writes: "Some time ago, I wrote to you about our son, then 1½ years, who would not sleep at night. You asked me to let you know how your advice worked out. I'm happy to report that he is sleeping all night until 7 A.M. or later. We did just as you suggested. It took only three or four nights of letting him cry. **MEALTIME PROBLEM** "But I'm ashamed to say we still have a big problem. He ruins our meals. We did make the mistake, when he started eating at the table with us, of letting him

LET'S EAT

Give Variety To Winter Menus Use Quick Canned Pear Chutney

By IDA BAILEY ALLEN "May I suggest the use of more canned pears, Madame, to add variety to winter menus?" queried the Chef. "They come in light syrup or water-packed. Both methods retain the fine pear flavor and texture. **SERVED THREE WAYS** "For breakfast, they are very good cut in bite-size pieces and served on crisp cereal with milk and a little brown sugar. "To brighten a luncheon, serve them as a first or dessert course, chilled and drained, with a little orange juice poured over. "For dinner, when the main dish is a casserole or curry of lamb or chicken, I propose my latest creation—Quick Pear Chutney."

2-1

If the main dish is ham, chicken, poultry or game, serve with it, either warm or cold, a homemade quick pear chutney. **Quick Pear Chutney:** In a qt. saucepan, combine 1 lemon with the rind, sliced thin, ½ c. raisins, ¼ c. dried crystallized or preserved ginger, ½ c. brown sugar, ½ c. cider vinegar, ¼ tsp. each nutmeg, dry mustard and salt and 1-1½ tsp. cayenne. Bring to a boil; simmer 15 min.

Blend 1 tsp. cornstarch with 1 tsp. juice from 1 (No. 2) can pears. Cook-stir 3 min. or until clear. Dice and add canned pears. Simmer 5 min. Serve warm or cold. Makes 3 c.

MONDAY DINNER

Cabbage-Green Pepper Slaw Lamb-Vegetable Casserole

TRICK OF THE CHEF Add a grazed raw apple when preparing Lamb Vegetable Casserole.

Finally getting the tea, after he fights for it, it might be better to let him have some at once. Do this until you have succeeded, between meals, in getting him to respect "No" as final. **PICK HIM UP** If he cries when you refuse the tea, calmly pick him up and put him in a comfortable chair, several feet from the table, telling him he may come back to the table when he stops crying. Then the family should be deaf to his cries. If he gets out of his chair too soon, slap him soundly and put him back in the chair. Continue to do this whenever he cries at the table. Place a small portion of one food he likes before him. Don't coax or tell him to eat it. Let him choose.

Not so simple. This mealtime problem is not so simple. It's very difficult indeed. It has two big objects to train him to accept "No" as final and to get him to enjoy proper food. Don't try to solve both problems at once. If he has been

KEEP IN TRIM Calisthenics Will Improve Shape Strengthen Lazy Muscles, Too

By IDA JEAN KAIN

For years we have tended to dismiss exercise as a means of reducing. We've also belittled the everyday role of exercise for keeping weight controlled. True, once the pounds have hardened on, it is no easy task to walk them off, or exercise them away. But as a means of keeping weight at healthy normal, walking can't be beat. And it's for free!

Our postman who has recently been "motorized" found out just how streamlining walking can be. In less than three months after he started riding his rounds in the P. O. car, he has gained six excess pounds. Now trying to lose his "corporation front," our postman comments: "The pounds come on easier than they come off."

Fact is, our national overweight and flabbiness stems largely from the fact that we have shifted from walking to riding. . . . and mechanical devices have taken the place of muscle power. This life of ease doesn't make for strength or shapeliness either. Our need for more exercise today may well be called critical.

We have been prone to regard calisthenics as strictly for the physical culture enthusiasts. Fortunately, that attitude is fast changing and calisthenics are now in vogue. The word calisthenics literally means strength and beauty—just what I want.

MARY HAWORTH'S MAIL

Bill Collectors Don't Bother Bill But Debts Are Driving Wife Crazy

DEAR MARY HAWORTH: Bill and I have been married four years, have a baby son and expect another child next April. Bill is considerate, we never argue and he would give me the moon if he could. . . . But we have a problem that is driving me crazy. Bill spends money like water; and is always losing jobs. . . . As of today we owe \$2,000, long overdue; and hardly a day goes by that two or three creditors don't call, threatening to sue. When I mention it to Bill he just nods, but he doesn't pay, as he is out of work again. He has spent \$250 in the last 10 days on clothes for himself and taxi fares. I have tried not to push him about money. I never buy anything for myself—except one maternity dress in four years. What few clothes I have were gifts from my family or his; and even the baby's clothes are gifts from them too.

SHE'S HOUNDED BY CREDITORS

The hospital and the doctor aren't paid yet for the baby's birth; and I am ashamed to go back to my doctor with this second pregnancy until I've paid him for the first. Also I think I'll lose my mind if I have to listen to one more threatening creditor. Bill tells me to go buy clothes if I need them, but I'd rather do without than have a debt hanging over me. And I never have cash for shopping. Bill gives me money for groceries and rent, and that's all. He was raised in the Bronx and his family never had enough to eat in his first 10 years. I realize this has almost everything to do with his urge to spend; and to own expensive things; but what can we do about it? He knows he spends too much but always seems to think something will turn up, to enable him to pay—and it never does. If he needs psychiatric help, we can't afford it. Is there some way I can help him. . . .?—P. F.

MAN'S CAPTIVE TO BAD HABIT

DEAR P.F.: You say Bill has an IQ of 138—but had to drop out of college due to failing grades. And that he has been fired from six jobs in the last four years, because he "couldn't concentrate the work at hand." Well, this is a picture of a man who needs psychiatric help to get the monkey wrench out of his mental processes. Could be that he has a reading disability, that completely fouls up his intelligence. Has he ever had this possibility checked? The condition may be rapidly overcome, once a correct diagnosis is made. However, part of his trouble, as I see it, is that his character hasn't yet developed up to the level of his age or IQ. He is naturally gifted, but as unschooled in the disciplines of adult competence as any 3-year-old child would be. His improvident grab for the niceties of life that he can't afford isn't so much a psychological quirk, ingrained by early deprivation, as you seem to think. Rather it is simply a bad habit by now—a form of self-indulgence that he's been getting away with. In the beginning, this performance represented a simple pure irresponsibility—a childish short-sighted operation, selfish and hopeful. An attitude of "wanting what he wants when he wants it"—regardless of who pays. And carelessly having his way, insofar as he can—on the unconscious theory (the child's megalomania feeling) that "everything is sure

to turn out fine for me." **HARD PROSPECT CONFRONTS WIFE** On this theory he has married, begot children, run into debt, etc., never really accepting responsibility (in his own mind) for his actions—always assuming, as you say, that somehow the ordinary ground rules won't apply to him. That he will get magic help from somewhere.

In the state from which you write, psychiatric help is available—and probably on terms that Bill could afford, if he would apply to a mental hygiene clinic. But he probably won't.

As for how you can help him, I feel that you can't. So the question is, rather, how to achieve some stability for the children's sake? My advice is to wake up and realize that you are building on sand, in depending upon Bill. After your second child is some months old, you should begin to establish yourself as a reliable income producer. A hard prospect, yes; but preferable to the boat you're in. —M.H.

Weekend OSHL Fans See A "Tale Of Two Cities"

By GEORGE INGLIS
(Courier Sports Editor)

Over the weekend, OSHL fans witnessed their own "Tale Of Two Cities."

On Friday night a packed house of Kamloops Chiefs fans watched the Packers come from behind and win a hockey game in overtime by a narrow, 3-2 score.

On Saturday night a packed house of Packers fans watched the Chiefs come from behind and win a hockey game in regular time by a narrow, 3-2 score.

The Friday night game was a big one for the Packers, giving them a five-point edge on the Chiefs, and putting them in the position where they could sew up the Becker Trophy on Saturday night.

The Saturday night game was the Chiefs last chance to grasp at first place, and their victory left them just three points behind the Packers again, the place where they started the weekend.

For the Packers, Jim "Moose" Middleton and Ray Powell carried the mail in both games, with Bill "Bugs" Jones turning the tide in the Packers favor on Friday night.

The Chiefs shared the wealth more evenly, with Bud Evans, Ron Leopold, Bill Hryciuk, and Mark Marquess scoring in the two encounters. Leopold, an OSHL rookie, scored the opening goal for the Chiefs in both games, something of a feat in the air-tight style of play that dominated both nights' play.

In two nights of high-stakes games it was the fans that were the real winners.

NAME OF THE GAME — HOCKEY

For those people who have been going around deriding Canada's winter sport this weekend series would have been a revelation—an eye-opening six periods of clean, thrill-filled minutes.

The average Joe Phan in Kamloops went home on Friday night, just as the average ditto did in Kelowna on Saturday night, just a trifle disappointed. A hockey fan wouldn't be worthy the name if he didn't feel that way when his team lost.

No one worthy of the name "fan," however, could have said he was unhappy with the style of play exhibited by the two clubs. No one could have mistaken the "oohs" and "aaahs" of the eager fans who watched the games for anything else other than sheer excitement and pleasure.

Not one outbreak of chippy play or referee-baiting marred the course of either game. The players were all intent on playing the game to the best of their ability and waiting for the split-second breaks that decided the games.

The biggest breaks the Packers had were taken advantage of by two chips-down, top-flight hockey players—one the oldest veteran on the Packers hockey club, and the other a "rookie" fresh from 14 years of professional stardom.

Powell, the "rookie," is a smooth centre man to whom the thrill of winning a championship is by no means a new thing. Middleton, the veteran, played his only championship hockey with the Penticton Vees of world hockey fame, when he was called over there as a last-minute replacement.

But the guy who really sent the club into ecstatic cheers was Bugs, the fellow who Keith Allen of Seattle describes as one of the finest hockey players ever to come from Saskatoon. His solo goal in overtime in Kamloops, besides being a game-winner, was a symphony of motion.

ANTI-CLIMAX

Anything else that happens between these two clubs is liable to be anti-climax after those two games, however, they have more to play.

With three points separating them, they have three games apiece left to play, but the edge is definitely with the Packers. Based on their play this weekend, they have a reasonably good chance of winning each of their games during the week, which would mean they would arrive at their finale this Saturday night still three points apart—giving the Packers the trophy.

The unknown factor in the play will be the Vernon Canadians and the Penticton Vees. As never before, they are both cast in the role of spoilers this week. If either Penticton or Vernon knock off the Chiefs, it will be all over.

Whatever happens between the clubs, fans will be treated to some splendid hockey should the leaders continue to display the terrific checking, skating and play-making that was seen in their weekend series.

It will be a climatic finish to a thrilling season.

Cautious Golf Brings Win In \$15,000 Tucson Open

TUCSON, Ariz. (AP)—Conservative golf gave Lionel Hebert, the trumpet-playing professional from Lafayette, La., the championship of the \$15,000 Tucson Open Sunday and sent him to the San Antonio Open this week richer by \$2,000.

Playing his shots with caution after taking the lead on the second hole of the final round, Hebert came home with a 66 for the par 70, 6,434-yard El Rio layout and a 72-hole total of 265-15 under par.

Stan Leonard of Vancouver and Lachute, Que., was the best of six Canadians in the tournament. He wound up with a 272 for a four-way tie for fourth money, winning \$862.

The other Canadians lined up this way: Bob Wylie, Calgary, 278; Al Balding, Toronto, 279; ex-National Hockey League player Bill Ezinecki, Winnipeg, 281; Jerry Magee, Toronto, 282; Lyle Crawford, Vancouver, 286.

JANUARY SECOND
Don January of Eastland, Tex., lost the one-stroke lead he held at the start of the final round when Hebert took a birdie three on the first hole. Even so he finished with 69 on the round and a total of 267, 13 under par, for second place and \$1,500.

John Barnum of Grand Rapids, Mich., carded 67 and a 72-hole total of 269, good for third-place money of \$1,200.

Jay Hebert, Sanford, Fla., the winner's older brother, birdied five of the last nine holes to finish with 65 and a total of 272. Leonard, Ken Venturi, San Francisco, winner of the recent Palm Springs, Calif., and Phoenix opens and the pre-tourney favorite, and Dow Finsterwald, Toluca, Fla., the defending champ were also tied at 272.

Bill Johnston, co-leader with Tony Lama, Napa, Calif., after 36 holes, was hit on the elbow by Leonard's driver during a practice swing early in the third round and his score soared to 273 at Hamilton Aug. 8.

PEAK OF IMPACT

Caught at the peak of impact, Bill Warwick, No. 9, seems to be musing on the problem of just how to handle the 6'4" of bone and muscle bearing down on him in Saturday night's Chiefs-Packers tussle. Greg

Jablonski, the Packers forward, is a member of Jack O'Reilly's "kid line" of Swarbrick-Ves-Jablonski. The Packers meet the V's in the Peach City tomorrow night. —Courier staff photo

Dominion Curling Entries Chosen For Four Provinces

By THE CANADIAN PRESS

Curling rinks throughout Canada are filled with the wish of the broom and the drone of the stone as the field narrows in competition to decide provincial representatives in the Dominion Curling Championships.

The issue has already been settled in four provinces—Nova Scotia, Newfoundland, Prince Edward Island and British Columbia. The championships are slated for Victoria March 3 to 7.

At Halifax last week, Don Bauld, veteran of three Dominion spels, led his Halifax rink to an extra-end 11-10 victory over Bridgewater to take the Nova Scotia championship.

CORNER BROOK WINS
Bud Fisher's Corner Brook rink will represent Newfoundland backed by an impressive record of six wins and no losses in the provincial lineup.

A newcomer to the national competition will be Doug Cameron, who skipped his Charlottetown rink to victory in the Prince Edward Island final. Cameron has, however, had his taste of big competition. He was at the Dominion schoolboy finals in 1950 and 1951.

Tony Gutoski of Victoria got the B.C. nod Sunday with a 12-7 victory over Glen Harper of Duncan.

All other provinces are scheduled to wind up competition within the next week.

The Quebec finals are Feb. 12-15 at Quebec City with 10 rinks entered.

TWO ONTARIO ENTRIES
Ontario has two entries in the Dominion competition, one from Southern Ontario and the other from Northern Ontario. The Southern Ontario finals got underway at Oshawa this week with eight teams. At Port Arthur Feb. 17 the Northern Ontario finals will see three teams competing. Both the Manitoba and New Brunswick finals start Monday.

Warriors Suffer In Coast Series

By THE CANADIAN PRESS

The mighty Winnipeg Warriors of the Western Hockey League's Prairie division are wending their way homeward today after a disappointing showing against the league's Coast teams.

The Warriors, still top dogs by three points on the Prairies, managed only one win and one tie in four games on the Coast. They defeated second-placed New Westminster Royals 4-2 and tied 6-6 with last-placed Victoria Cougars. They lost 5-2 to Vancouver Canucks and, in their last

Eskimo Players Come To Terms

EDMONTON (CP) — Line-

backer Ted Tully and tackle Roger Nelson have agreed to terms for the 1958 Western football conference season, Edmonton Eskimos announced today.

Tully, 27-year-old Vancouver-born defensive all-star, is returning for his ninth season with Eskimos while Nelson, a 26-year-old import from Oklahoma University, is returning for his fourth year here.

The club announced at the same time that it is seeking another exhibition game in Eastern Canada. Eskimos will meet the Grey Cup champion Tiger-Cats at Hamilton Aug. 8.

game Sunday, 2-1 to third-placed Seattle Americans.

It wasn't an easy win for Seattle. Ray Kinasewich steered the puck past Winnipeg goalie Ray Mikulian with only 28 seconds remaining to score the winning goal.

Bill Mosienko had put the Warriors back on even terms early in the third period, matching Gordie Sinclair's first-period goal for the Americans.

The win moved Seattle within six points of New Westminster in Coast standings. The Royals handed the leading Canucks a 5-1 beating Sunday night, but remain 11 points behind Vancouver.

Arnie Schmutz, with two goals and an assist, led to Royals' attack. Other New Westminster goals came from Dick Van Impe, Gordie Fashoway and Pat Hangan. Vancouver's lone goal came from captain Phil Maloney.

Cougars, coming up with their most inspired hockey this season, battled from behind five times to tie the Warriors Saturday night in Victoria.

Tom McCarthy, recently acquired by the Cougars in a deal that sent Colin Kilburn to Edmonton Flyers, led the Victoria club with two goals.

Stan Baluk, Gordie Haworth, Art Hart and Gordie Wilson each added singles for the Cougars. Wilson also chalked up a pair of assists.

Leafs Split On Weekend, Back Where They Started

By BILL MACDOUGALL

Canadian Press Staff Writer

The men who wrote the National Hockey League schedule gave Toronto Maple Leafs a break this weekend. They apparently didn't want it.

Gutoski Choice For B.C.'s Reps

PENTICTON (CP)—Tony Guto-

ski of Victoria won the British Columbia curling championship by defeating Glen Harper of Duncan 12-7 in the final game of the best-of-three series here Sunday.

Gutoski will represent B.C. in the national championships at Victoria in March.

The game was conceded in the 11th end.

Gutoski's victorious rink includes Bill Dunston, third, Garry Libel, lead and Don Dalziel, second. On the Harper rink were Harvey Hodge, Fred Duncan, and Shorty Perkey.

Both rinks played cautiously in the early ends with Gutoski's Libel, 19, and Dalziel, 18, performing especially well.

PLENTY OF PUCKS
A National Hockey League club will use an average of 200 dozen pucks in a season. The pucks cost \$7.50 per dozen. The pucks are kept on tap for games frozen at 10 degrees to cut down the rolling.

Packers Had Hopes—Chiefs Lacked Charity

The Chiefs kept the Becker Trophy dangling before the Packers out-stretched fingers on Saturday night when they edged them, 3-2, in a thriller before the largest crowd of the season in the Orchard City, over 2,500 fans.

A minimum of mistakes and a maximum of fast, close-checking hockey delighted the capacity house, and it was penalties that decided the game—although there were only nine minors handed out.

Packers "old vet" Jim Middleton and their "new vet" Ray Powell came through with one goal apiece in the contest. They scored two of the club's three goals in the Friday night thriller in Kamloops, which went to the Packers by the same 3-2 score.

SAME POINT SPREAD
The weekend split left the spread between the first-place Packers and the Chiefs still three points, with three games left to play. When the Packers and Chiefs meet in the Hub City this Saturday night, they will either be playing for the Becker Trophy or it will have gone to the Packers during the week.

The leaders meet Penticton tomorrow night and host Vernon on Friday.

Rookie Ron Leopold picked up his second goal of the weekend series Saturday night, putting his score at three goals. First, when he moved out into the clear from a face-off inside the Packers' blue line and effortlessly let one go that took goalie Dave Gathem by surprise and went

right through his legs, for the only goal of the first frame.

EARNED COSTLY PENALTIES
Leopold undid his good work in the second frame when he drew a delayed tripping penalty, then went and tripped Bill Swarbrick a second time, to earn another minor.

"Moose" Middleton did the honors, taking a flip pass from Powell and sinking a difficult angle shot to tie the score and make the Packers' fans hopes rise.

The Packers further chances for power play were ended when a minor to Smith evened the clubs up and the threat died.

Powell came through for the goal that gave the Packers their first and last lead in the game at 6:38 of the final frame, when he took a pass from Roche and caught the corner of the net with a wicked backhand from a lean angle.

POWER PLAY PAY-OFF
Less than two minutes later, with the Chiefs exerting plenty of pressure on the power play with Lavell off, Leopold slid one into the tangle of legs in front of the goal, and lynx-eyed Hryciuk jumped on it, tipping it in for the tying goal.

For five minutes the teams battled on even terms, with all stops out and play ranging back and forth in hysterical tempo, but it was the Chiefs who got the game-winning break.

Cadman circled behind the net at top speed and seemed to be going nowhere as he headed out for the Packers' blue line, but he handed it to Bob Dawes, moving in, and Der Wilder Bill slipped it over to Marquess faster than Gathem could jump over to cover. Time of the goal was 13:03.

Both Packers' counters and the Chiefs' big tying marker were scored on penalties in the comparatively penalty-free 60 minutes.

The Chiefs out-shot the Packers, 29-24, only about half the number of shots on goal that were recorded Friday night.

The Packers face the Vees tomorrow night in the Peach City, and the southern club may be without the services of stellar net-minder George Wood, reported to have suffered an eye injury on Saturday night.

SUMMARY
First period—1. Kamloops, Leopold (unass.) 06:35. Penalties, Middleton 09:26, Dawes 15:26, Bill Warwick 19:50.

Second period—2. Kelowna, Middleton (Powell, Roche), 9:15. Penalties Leopold (two minors) 7:38; Smith 9:30.

Third period—3. Kelowna, Powell (Roche) 06:38; 4. Kamloops, Hryciuk (Leopold) 8:18; 5. Kamloops, Marquess (Dawes, Bill Warwick) 13:03. Penalties, Grant Warwick 5:20; Lavell 6:48.

PENTICTON (CP)—Two-goal performances by Frank King and Jim Moro led Vernon Canadians to a 5-3 victory over Penticton Vees Saturday night before 1,450 Okanagan Senior Hockey League fans.

Sherman Blair scored the fifth Vernon goal, while Walt Peacosh found the range twice for Penticton and Rheo Touzin fired the third goal for the V's.

V's goaltender George Wood was injured at the midway mark of the second period when he slipped on his net and flopped on a loose puck. Several players fell over him and his eyelid was cut by a skate.

Vernon's spare goaltender, Jim McLeod, finished the game in the Penticton nets.

The teams battled through a scoreless first period before Moro and King gave Vernon a 2-0 lead in the second period.

SUMMARY:
First period
No scoring
Penalties: none.
Second period
1. Vernon, Moro (Agar, King) 6:57.

2. Vernon, King (Davison) 10:40
3. Penticton, Peacosh (Utendale, Touzin) 11:32
4. Vernon, Moro 19:40
Penalties: Lebodia 10:47, Lebodia Trentini, Touzin and Diachuk 16:22.

Third period
5. Penticton, Touzin (Lloyd, Slater) 1:59
6. Vernon, King (Agar) 7:00
7. Vernon, Blair (Trentini, Lowe) 10:25
8. Penticton, Peacosh (Kilburn, Utendale) 13:35
Penalties: none.

MIDGETS TAKE WIN
— EXHIBITION, 5-3

The Kelowna midgets won their exhibition tussle with the Kamloops club Sunday night, 5-3, making their exhibition series with the Mainline city unanimous.

Ralph Kirschner, Bruce Kitch, George Boychuk, Wayne Horning and Paul Ikenoye scored for the locals, and Vic Minamide and P. Horton announced for the Hub City.

Both clubs may very well meet in the Okanagan-Mainline play-offs this year, since both of them show a good deal of strength in their own divisions.

COLLEGE TACKLE SIGNED
WINNIPEG (CP) — Gordon Holz, a tackle who played college ball at the University of Minnesota, has been signed for 1958 by Winnipeg Blue Bombers of the Canadian Football League, western division, the club announced today.

Holz, a six-foot-four, 245-pounder, has been in the United States Navy for two years since graduating from Minnesota.

SUSPENDED SENTENCE
TRAIL (CP) — A tipsy holdup man who held up the Crown Point hotel liquor lounge then argued with a customer was given a two-year suspended sentence when he appeared in police court.

Stanley J. Hanley of Trail, father of four, pleaded guilty to stealing \$11 and using threats to obtain the money. He pretended he had a gun in his pocket.

As Hanley left the lounge he stopped to argue with A. Hebert, the only customer. While they argued hotel officials called police.

WEEK-END FIGHTS

By THE ASSOCIATED PRESS

Hollywood—Lauro Salas, 129, Los Angeles, outpointed Noel Humphrey, 130, Charleston, W. Va., 10.

Havana—Paul Diaz, 157½, Cuba, stopped Tom Simonetti, 160½, Tampa, Fla., 8.

Tokyo—Mitsuo Misako, 114½, Japan, outpointed Katsuchi Asami, 115½, Japan, 8.

Gutoski will represent B.C. in the national championships at Victoria in March.

The game was conceded in the 11th end.

Gutoski's victorious rink includes Bill Dunston, third, Garry Libel, lead and Don Dalziel, second. On the Harper rink were Harvey Hodge, Fred Duncan, and Shorty Perkey.

U.S. - Russians Appear Ready For Conference

By JOHN M. HIGHTOWER
WASHINGTON (AP) — The United States and Russia now appear about ready to open the diplomatic negotiations which may eventually lead to an East-West summit conference.

A new Soviet ambassador, Mikhail A. Menshikov, arrived Thursday to take command of Moscow's embassy here. He is expected to seek prompt meetings with State Secretary Dulles and President Eisenhower to the future of Germany and basic present his credentials and thus disarmament problems, some clear the way for active work.

Premier Bulganin advised that prolonged negotiations even President Eisenhower in a mes-

toward initial arms control arrangements and measures to prevent surprise attack.

Menshikov, who speaks English well, arrived Thursday aboard a Soviet jet airliner. He immediately proclaimed himself as an ambassador of "peace, friendship and co-operation."

He expressed a hope for "normalized economic relations" between the U.S. and Russia, "especially mutually advantageous trade."

He also recalled that he had spent three years in Washington after the war, when he was a UN official.

"DO MY BEST"

In that period, he said, he became acquainted with the country, its industries and the "talented and energetic American people whom I deeply respect."

Two British monarchs, George V and George VI, died at Sandringham house, in Norfolk.

NATIONAL ELECTRICAL WEEK

Edison's Discoveries Commemorated Here

By ALBERT DENEGRIE
Daily Courier Staff Writer

Each year, around this time of February, National Electrical Week is observed. The observance is much more pronounced in the United States than in Canada, but is gaining ground here.

Purpose or theme of the week is to make everyone more conscious of the uses and advantages of electricity—and at the same time recall the memory of that great inventor of the electric light bulb (and a host of other inventions)—Thomas Edison.

Local contractors, banded together as the Okanagan Electrical Service League, are cooperating in sponsoring National Electrical Week in Kelowna and district, and the city of Kelowna, which supplies all the homes within the boundaries of the city with electrical power, also is supporting the observance.

Tomorrow, Tuesday, is the 101st anniversary of the birth of Thomas Alva Edison, of Dutch ancestry at Milan, Ohio.

World Renown

Despite his education being limited to three months in public school, his inquiring mind and persistence brought him to the forefront as one of the world's leading inventors.

In 1859, when he was 21 years old, he took out his first patent on an electrical vote recorder. During the next few years he devised stock tickers, duplex, quadruplex and automatic telegraph systems, and the electric pen, which developed into the mimeograph.

His invention of the carbon transmitter, at the age of 30, in which compressed lamp black buttons were used to obtain the necessary variable resistance in the circuit, marked a real advance in the art of telephony and aided materially in bringing the Bell telephone into practical use.

First Light Bulb

Edison was credited with the first phonograph. The original model, costing \$18, was a cylinder covered with tinfoil and turned by a hand crank.

On Oct. 21, 1879, after expending more than \$40,000 in fruitless experiments, he succeeded in making an incandescent lamp in which a loop of carbonized cotton thread glowed in a vacuum for over 40 hours. That was the first electric light bulb.

The following decade was devoted to the invention and exploitation of methods for the generation and distribution of electric light, heat and power, including three-wire systems, underground mains, improved dynamos and motors and an electric railway for carrying freight and passengers.

In 1889 he applied for a patent on a kinesiographic camera, for taking motion pictures on a band of film to be viewed by peeping into a box. This was the start of movies as they are known today.

DIED IN 1931

Edison was credited with inventions that led to the radio tube and a method of transmitting telegraph signals from moving trains for between ships by induction.

In his combined workshop and laboratory at Menlo Park, and later at Orange, N.J., Edison had been incessantly engaged in various forms of invention for more than 50 years and had taken out 1,033 patents up to April, 1928. His death occurred October 18, 1931.

The achievements accomplished by the Wizard of Menlo Park are about us every day and his name is commemorated in several diverse fashions.

There is a museum named after him at Orange, N.J., and in it are his library of 10,000 books and original notebooks and records; his workshop, where the phonograph, universal electric motor, motion picture apparatus and other things were invented.

LIGHTED VILLAGE

The Henry Ford Museum and Greenfield Village, near Detroit, were founded by Henry Ford and dedicated to Thomas Alva Edison.

Greenfield Village has over 100 separate buildings illustrating 19th century America, including the laboratory and other buildings used by Edison at Menlo Park where he invented the electric light.

To commemorate the seventy-fifth anniversary of Edison's invention of the electric light bulb, the electrical industry designated 1954 as the year of Light's Diamond Jubilee.

It recalled that on Oct. 21, 1879, Edison announced the perfection of a practical incandescent lamp. He then wired the village of Menlo Park and on Dec. 31 of the same year demonstrated the lamp with lights in houses, on the streets and in his laboratory, all supplied with electricity from a single source.

Beserk Elk Story Will Be Probed

VANCOUVER (CP) — Frank Butler, provincial game commissioner, said today he will inquire into "unbelievable" stories of a beserk elk in southeastern British Columbia.

Reports from Windermere, B.C., said the elk charged two vehicles and a building late Thursday.

Truck driver Clarence Sinclair said he was on his way to a nearby gypsum quarry to load up when his vehicle was charged three times by an elk. The vehicle's fender and radiator were damaged.

I. L. Isaacson, watched from an office window at the quarry as the enraged elk charged a stationary truck and then turned its attention to a small building. The animal then ran off with a garbage can lid attached to an antler.

A car driven by Mrs. Isaacson towards the quarry was also attacked by the elk. Mrs. Isaacson said she crouched on the floor of the car to hide from the animal.

She said the animal appeared to be about 1,000 pounds in weight and in poor condition.

Mr. Butler commented: "Unbelievable. Elk never attain greater weight than 600 pounds and have never been known to attack cars—especially at this time of the year. I shall get a report from the game commissioner at Windermere."

OLD FIELDS

Port Alma, Ont., draws natural gas from two of the oldest fields in Ontario — Tibury, discovered in 1906, and D'Clute, discovered in 1910.

DIDN'T HAVE IT LONG
NEW YORK (AP)—Jaime Ortiz told police he tucked the cash into a red shopping bag under some groceries. He sat the closing the store. When he got out \$3,500 last week, but he lost bag on the front seat of a taxi-of the cab, he said, he left the every cent of it the same day; cab in which he rode home after bag inside.

Births

PROUD FATHER — YOU CAN tell all the fellows about the birth of your child through the Kelowna Daily Courier's Birth Classification for only \$1.25. An efficient ad-taker will assist you in wording your notice — call the day of birth. Phone 4445 — ask for the Classified Desk.

Deaths

FRASER — George Johnston, aged 85 years, passed away in Kelowna on Sunday, February 9. Funeral services will be conducted at Osoyoos United Church on Wednesday, February 12, at 2 p.m. Rev. S. Fike officiating. Interment Osoyoos Cemetery. Mr. Fraser is survived by his loving wife, Josephine in Osoyoos, one son, Douglas P. of Osoyoos, two daughters, Dorothy (Mrs. C. F. Malt) in Florida and Margaret (Mrs. G. W. Driver) in Osoyoos; six grandchildren and one brother, Frank, in Vancouver. Kelowna Funeral Directors have been entrusted with the arrangements. The family respectfully requests there be no flowers please.

SEALE — Lottie Marie, aged 82 years, passed away in Vernon on Friday, February 7. Archdeacon D. S. Catchpole will conduct funeral rites from St. Michael and All Angels' Church, Kelowna, on Wednesday, February 12, at 2:00 p.m. Interment Kelowna Cemetery. She is survived by one sister, Ethel (Mrs. H. G. M. Gardner) in Kelowna and two brothers, Charles E. Moon, West Vancouver, and Captain John R. Moon, in England. Kelowna Funeral Directors have been entrusted with the arrangements. The family respectfully requests there be no flowers please.

NOTICE OF SALE

TAKE NOTICE that I as bailiff of John L. Ritchie, Esq., did on the 19th day of November, 1957, distraint on the premises at 229 Kelowna in the Province of British Columbia the goods and chattels mentioned in the inventory thereto for one hundred and ten Dollars (\$10.00) being one month's rent due to the said John L. Ritchie on the tenth day of November, 1957, for the said premises; notice of the aforementioned distraint was posted on the mentioned premises on Tuesday, the 19th day of November, 1957, at 3:40 p.m. by me;

AND I HEREBY TAKE NOTICE that I intend on or about the 19th day of February, 1958, to sell the goods mentioned in the inventory;

AND FURTHER TAKE NOTICE that I intend to employ as sales agent the firm known as "Scotty's New and Used Furniture" at 229 Bernard Avenue in the City of Kelowna in the Province of British Columbia;

G. K. KRISTJANSON, Deputy Sheriff, Bailiff for John L. Ritchie.

Mom Might Be To Blame For Baby's Diaper Rash

By Herman N. Bundesen, M.D.

From time to time, I receive letters from mothers complaining that their children have developed diaper rash. They seem surprised that diaper rash can occur during the cold winter months.

Diaper rash, I would like to point out, is not a seasonal problem. Since it is caused by the breaking down of urea and subsequent development of ammonia, and not by perspiration, it can occur in any weather.

MAY BE YOUR FAULT
If your infant is bothered by it, chances are it may be your fault.

Diaper rash is aggravated by lack of cleanliness and irritation of the baby's tender skin. You must see that the diaper area is kept as warm and as dry as possible. Change the diapers as soon as they become wet.

FURTHER PROTECTION
There's a lot more you can do, too, to protect your child from this irritating rash.

For example, use rubber or plastic pants on the youngster only while travelling or making brief visits, when changing is inconvenient. Never permit the child to wear waterproof pants throughout the night.

LAUNDERING DIAPERS
You must pay particular attention to laundering the diapers.

The Journal of the American Medical Association reported not

long ago that testing showed that, as a rule, commercial laundering was much more effective in removing and inhibiting growth of ammonia-forming bacteria and in removing irritating detergents than home-laundering methods.

Commercial diaper services in most cities do an excellent job. If you must launder the diapers at home, you should use a bactericide, an urease inhibitor and zinc silicofluoride.

The AMA Journal says that three per cent phenylmercuric acetate seems to be the best antiseptic.

ON DOCTOR'S ADVICE
Methylbenzethonium and RH 3104 are effective inhibitors of urea decomposition, according to the Journal, but they should be used with the doctor's advice.

In addition, the diapers should be given warm and hot rinses and two soapsings at 180 degrees. Then they should be bleached and given three more hot rinses.

This is not just a chore you must perform once or twice. As long as your infant wears diapers, you must take measures to protect him from diaper rash.

QUESTION AND ANSWER
D. M. Does pasteurization destroy the vitamins in milk?

Answer: There is a slight loss of Vitamin C and thiamine or Vitamin B1 in pasteurization. However their loss is not a matter for concern, as a rule.

MON. FEB. 10, 1938

THE DAILY COURIER 7

CANADIAN ENSIGN FLIES IN U.S.

The Canadian ensign and the American Stars and Stripes fly side by side at the headquarters of the North American Air Defence Command in Colorado Springs, Colorado.

Shown raising the Canadian ensign is RCAF Corporal Lloyd R. Ledrew of St. Lambert, P.Q., assisted by a pair of USAF air policemen.

YOUR HOROSCOPE

The Stars Say

FOR TOMORROW

Don't yield to extravagance now, and don't make promises which you can't reasonably fulfill. Avoiding both these tendencies, you should have a happy and satisfactory day. Look for some excellent news in the early evening.

FOR THE BIRTHDAY

If tomorrow is your birthday, you should be most optimistic now. Your horoscope indicates that job programs launched with the beginning of the new year, should culminate successfully and bring some pleasing recognition before the end of June.

The months between July and September should find you in the midst of some unusual and interesting experiences in both the social and romantic fields, and there is also a possibility that, during the same period, collaboration with another could further your interests considerably. Avoid nervous tension in October; extravagance in November. By December, financial matters should be in good shape, so, all in all, your prospects are excellent.

A child born on this day will be talented, ambitious, endowed with the qualities which could lead to a professional career.

Opening lead—queen of diamonds.

There are any number of stories that have been written about the Two Little Old Ladies.

They are the composite, fictional characters who play against the experts in bridge tournaments and sometimes manage in their own sweet, innocent way, to wreak havoc with the masters.

One of the most famous of these stories occurred the time the Two Little Old Ladies sat down against a couple of celebrated life masters in a national pair championship. They were quaking with fear, and it is not astonishing that when the bidding was over, Little Old Lady No. 2 (East) led the queen of diamonds out of turn.

The tournament director was called and he ruled South could call the lead of any suit (that line up with the Soviet Union's

was the rule in those days), or treat the diamond queen as an exposed card.

So South asked for a club lead from West and Little Old Lady No. 1 said she didn't have a club to lead. Declarer, having exacted his penalty, even though West could not comply, had no further rights, and Little Old Lady No. 1 was informed she could lead anything her heart desired.

She shrewdly opened a low diamond, knowing her partner had the queen. East won with the jack—the queen was back in her hand—and returned a club, the suit West had announced she was void of.

West ruffed, of course, and led another low diamond, which East won with the queen. Another club return was ruffed by West, and by now the Two Little Old Ladies had run out of tricks. But they had snatched the first four and a greatly perturbed South found himself down one.

All over the room everybody was making four or five spades, while our expert South was the only one to be defeated in the four spade contract.

Moral: "Never relax against the Little Old Ladies."

VOTE FOR BASES

ROME (AP)—Turning back a Communist challenge, the Italian Chamber of Deputies last week backed Premier Adone Zoli's pro-Western foreign policies and refused to bar the government from accepting United States missile bases in Italy. The vote, regarded as an informal confidence test, came after a foreign policy debate on a Communist-socialist motion which would have had Italian foreign policy call the lead of any suit (that line up with the Soviet Union's

Brotherhood Week Wins Support Of Many Canadians

Brotherhood Week begins February 16.

Under the auspices of the Ca-

nadian Council of Christians and Jews, Brotherhood Week will attempt to bring Canadians nearer to realization of the hope "that people shall live together as one family of man."

Many Canadian notables have endorsed the council's efforts, including politicians, industrialists, entertainers and, of course, religious leaders.

"There is a desperate need for Brotherhood in a land like Canada, composed of people of different backgrounds, languages, religions, heritages and traditions," says Archibald D. MacKinnon, moderator of the Presbyterian church in Canada.

"It is most desirable that there should be mutual understanding among this diversity of people, possessing such varieties of cultures, attitudes and hopes. Brotherhood Week has for its purpose the promotion of such understanding."

Shangri-la Means Dangerous Existence For Kelowna Nurse

(Editor's note: The young woman mentioned in the following article, is the daughter of Mr. and Mrs. J. Brunski, 461 Rose Ave., Kelowna, who first came to Kelowna in 1948. Mrs. Young is a graduate of Victoria Jubilee Hospital and was on the nursing staff at Kelowna General Hospital in 1953 and 1956.)

By RALPH CRAIG

Rev. Henry Young, a crew-cut minister wearing a T-shirt, shorts and moccasins, sat relaxed in the concrete-floored, tin-roofed house atop "Missionary Hill" in Dutch New Guinea and talked about Shangri-la.

He spoke casually of the murder of 30 tribesmen a day or two before, of spears hurled within yards of his home by warriors, and of how one of his colleagues, Rev. Tom Boreman of Del Ray Beach, Fla., had watched savages who were trying to befriend each one of their human victims.

Mr. Young is a permanent resident of the big Baliem Valley, the fabled hidden valley where WAC Cpl. Margaret Hastings and a male sergeant and lieutenant survived the World War II crash of a sightseeing transport plane. As a missionary of the Christian and Missionary Alliance, Mr. Young and his wife, Bernice, a registered nurse, of Kelowna, B.C., are risking their lives almost daily to change the lives of the people who live around his mission station in the 80 by 20 miles valley hidden by the 10,000-foot Orange Mountains.

These two photos show views of the high pressure pumps which supplied the water for the anchor jetting system on Lake Okanagan bridge. Pumps were powered by two 165-horsepower diesel engines. Sinking anchors through a "jet" system is not unusual insofar as the engineering profession is concerned, but it is the first time that it has been done in B.C. When completed Okanagan Lake bridge will be the largest pontoon type of bridge with a lift span in the world. There are longer pontoon bridges, but they have no lift spans. (Paul Ponich Photo)

George Fraser, Former Kelowna Canning Operator, Dies At 85

A long association with the Okanagan Valley, dating back to 1886, ended Sunday with the death in Kelowna of George J. Fraser, 85, who was connected with one of the first canneries in the Okanagan. He was in his 86th year.

After early years in Ontario and Pilot Mound, Man., Mr. Fraser came to the Okanagan in 1890, where he worked for two years at the O'Keefe ranch near Vernon. In 1899 he moved to Kelowna and in 1901, after a year in the Kootenays he returned to the Prairies where he ranched near Gratum, Alta.

In November, 1907, he married Annie Josephine Plaskett at MacLeod, Alta., and they came to Kelowna to make their home. Here he started the Kelowna Canning Co. in 1908, in partnership with his brother Frank and other Kelowna associates.

OPPOSITE PARK

This cannery, located opposite the Kelowna City Park, was one of the earliest canning enterprises in the valley. A larger plant was built in 1912 and is the present building of the Kelowna branch of Canadian Canners.

In 1910 Mr. Fraser moved to Penikese where he was manager of a cannery plant and a packing house and was engaged in a real estate firm with J. R. Mitchell. In 1915 he returned to Kelowna to manage the cannery and was associated at this time with Leopold Hayes in the Occidental Packing Co. He moved to Osoyoos in 1917 and had resided there since.

After management of the Leslie Hill ranch with the late E. A. Hayes for three years, he interested a group of valley friends in the formation of Osoyoos Orchards for the purchase of the Hill estate. Among those friends were D. E. Burpee, C. L. Carless, Leopold Hayes, W. McConnachie, E. R. Dawson, R. H. Plaskett, a Mr. Helmer and others.

FUNERAL AT OSOYOOS

The installation of an irrigation system and planting of orchards in 1920 marked the beginning of the extensive development of the Osoyoos area. In Osoyoos, the late Mr. Fraser was active in fruit-growing and the orchard organizations, being for many years president of the Osoyoos Co-op Growers and a director of the Associated Growers.

His later years were spent in helping and promoting a wide range of community enterprises. Surviving are his wife, Josephine; one son, Douglas, Osoyoos; two daughters, Mrs. C. F. (Dorothy) Malt, in Florida, and Mrs. G. W. (Margaret) Driver, Osoyoos; six grandchildren and also one brother, Frank, Vancouver.

Funeral will be held Wednesday at the United Church in Osoyoos, at 2 p.m., with Rev. S. Pike officiating. Burial will be in the Osoyoos cemetery, with Kelowna Directors in charge.
